

**BEFORE THE HON'BLE GUJARAT ELECTRICITY REGULATORY
COMMISSION AT GANDHINAGAR**

Filing No. _____

Case No. 2429/2024

IN THE MATTER OF Filing of Petition under Section 62 and 64 of the Electricity Act, 2003 read with GERC (Multi Year Tariff) Regulations, 2016 and GERC (Multi Year Tariff) Regulations, 2024 for (i) Truing up of FY 2023-24 (ii) Determination of ARR for MYT Control Period FY 2025-26 to FY 2029-30; and (iii) Determination of tariff for FY 2025-26 for Distribution business of Dholera SIR Supply Area

AND

IN THE MATTER OF Torrent Power Limited
"Samanvay", 600, Tapovan,
Ambavadi,
Ahmedabad – 380 015

.....**PETITIONER**

THE PETITIONER ABOVE NAMED RESPECTFULLY SUBMITS AS UNDER

Torrent Power Limited, hereinafter referred to as the Petitioner, files the petition for Truing up of FY 2023-24, Determination of ARR for MYT Control Period FY 2025-26 to FY 2029-30, and determination of tariff for FY 2025-26 for its Distribution business of Dholera Special Investment Region Supply area (hereinafter referred to as TPL-DSIR or Dholera Supply Area for the sake of brevity).

Chapter 1: Introduction

Company Profile

- 1.1 Delhi Mumbai Industrial Corridor Development Corporation (DMIDC) is a Special Purpose Vehicle (SPV) of Government of India (GoI). DMIDC has been set up to form a potential hub of economic activities in the Western Region.
- 1.2 Dholera, one of the Special Investment Regions (DSIR) is a part of DMIDC project in the state of Gujarat. TPL is the distribution licensee of Dholera Special Investment Region (DSIR) License area.
- 1.3 The Petitioner submits that present petition is being filed for its distribution business of Dholera supply area, hereinafter referred to as TPL-DSIR or DSIR Supply Area.

Background to Multi Year Tariff Filing

- 1.4 The Hon'ble Commission has notified the GERC (Multi Year Tariff) Regulations, 2016 (hereinafter referred to as the MYT Regulations, 2016). In turn, the Hon'ble Commission has been pleased to approve the business plan for FY 2023-24 and also permitted to levy the tariff of Dahej SEZ area, as amended from time to time, to the consumers of DSIR during FY 2023-24.
- 1.5 Subsequently, the Hon'ble Commission has notified the GERC Multi Year Tariff Regulations, 2024 (hereinafter referred to as MYT Regulations 2024) for the Control Period of FY 2025-26 to FY 2029-30. Accordingly, the Petitioner is required to file the petition for determination of ARR for MYT Control Period FY 2025-26 to FY 2029-30, and determination of tariff for FY 2025-26 as per the provisions of the MYT Regulations, 2024.

Requirement of Truing up and Determination of Tariff

- 1.6 The Regulation 16.2 (iii) of the MYT Regulations, 2016 provides for the truing up of previous year's expenses and revenue based on audited accounts vis-à-vis the approved forecast and categorization of variation in performance as those caused by factors within the control of the applicant (controllable factors) and those caused by factors beyond the control of the applicant (uncontrollable factors).

- 1.7 Subsequently, the Hon'ble Commission has notified the MYT Regulations, 2024 for the Control Period of FY 2025-26 to FY 2029-30. The Regulation 16.3.1 of the MYT Regulations, 2024 provides for filing a Multi-Year Tariff Application comprising the forecast of Aggregate Revenue Requirement (ARR) for the entire Control Period.
- 1.8 The Regulation 16.3.2 of the MYT Regulations, 2024 provides for the annual determination of tariff for each financial year within the Control Period based on the approved forecast and results of the truing up exercise.

Approach adopted for Present Petition

- 1.9 The Petitioner submits the present petition for determination of ARR for MYT Control Period FY 2025-26 to FY 2029-30 including Truing Up of FY 2023-24 and determination of tariff for FY 2025-26 for its distribution business of DSIR Supply Area.
- 1.10 The petition includes the forecast of the expenses during the MYT Control Period from FY 2025-26 to FY 2029-30 for its distribution business of DSIR Supply Area in line with the provisions of the MYT Regulations, 2024. The True-up exercise has been carried out based on the actual performance for FY 2023-24. However, it may kindly be noted that since no ARR has been separately approved for FY 2023-24, the variation in cost items may kindly be treated as uncontrollable and gains/losses be allowed to pass through in tariff based on the MYT Regulations, 2016.
- 1.11 The Petitioner has proposed determination of tariff for FY 2025-26 based on Trued up Gap/ (Surplus) of FY 2023-24, recovery of carrying cost, and estimated Gap/ (Surplus) of FY 2025-26 considering the estimated ARR of FY 2025-26 and the revenue at existing tariff.
- 1.12 The Petitioner submits that the present petition is being filed without prejudice to the matters pending before the Hon'ble ATE/Hon'ble GERC and the claims, contentions and submissions of the Petitioner in relation to various sub judice matters.

Petition Structure

- 1.13 The Petitioner files the Multi Year Tariff petition for FY 2025-26 to FY 2029-30, Truing Up of FY 2023-24, and determination of tariff for FY 2025-26 for its distribution business of DSIR Supply Area.
- 1.14 The petition includes the following Chapters. A brief outline of the content of each chapter is provided below:
- a) Chapter 1 contains the introductory information to the petition and background of the petition filing.
 - b) Chapter 2 contains the executive summary including a synopsis of the Petition and prayers to the Hon'ble Commission.
 - c) Chapter 3 covers true-up exercise for FY 2023-24 and identification of uncontrollable costs and sharing of gains/losses.
 - d) Chapter 4 contains the ARR for MYT Control Period from FY 2025-26 to FY 2029-30.
 - e) Chapter 5 contains the segregation of ARR in wheeling & retail supply business.
 - f) Chapter 6 contains gap/ (surplus) analysis.
 - g) Chapter 7 contains the Tariff proposal for FY 2025-26.
 - h) Chapter 8 contains the prayers to the Hon'ble Commission.

Chapter 2: Executive Summary of the petition

- 2.1 As per the provisions of the GERC (Multi Year Tariff) Regulations, 2016 read with GERC (Multi Year Tariff) Regulations, 2024, the Petitioner is filing this petition before the Hon'ble Commission for approval of:
- a) Truing up of ARR for FY 2023-24 and sharing of gains/losses on account of uncontrollable factors,
 - b) Determination of ARR for MYT Control Period from FY 2025-26 to FY 2029-30,
 - c) Determination of Gap/(Surplus) for FY 2025-26, and
 - d) Determination of tariff for FY 2025-26

True Up for FY 2023-24

- 2.2 The Hon'ble Commission has been pleased to approve the business plan for FY 2023-24 and also permitted to levy the tariff of Dahej SEZ area, as amended from time to time, to the consumers of DSIR during FY 2023-24. The petitioner has commenced operation in DSIR from Q3 of FY 23-24.
- 2.3 TPL-DSIR is submitting details in this petition based on the actuals of FY 2023-24 for the purpose of truing up of FY 2023-24 in accordance with the GERC MYT Regulations, 2016.
- 2.4 Owing to nascent stage of operation, the petitioner has considered all parameters of ARR as uncontrollable.
- 2.5 The energy requirement is based on the actual sales and the actual T&D losses for FY 2023-24. During FY 2023-24, the sales for Dholera supply area is 1.61 MUs and the distribution loss is 0.68 Mus due to lower loading of network due to nascent stage of operations.
- 2.6 The trued up ARR has been arrived at by considering the actual expenses. The variation in power purchase cost on account of price, quantity and mix is uncontrollable and passed on in the ARR. Similarly, considering the nascent stage of operations, the variation in expenses to the extent of variation in distribution loss & O&M expenses is

also considered as uncontrollable for the sharing of gains/losses as per the MYT Regulations, 2016.

- 2.7 The other fixed cost items of Dholera Supply Area, such as, Interest expense, Depreciation, Bad debts, Return on Equity, Income Tax and Non-Tariff Income is trued-up based on the classification of un-controllable factors for each item head as applicable. Accordingly, the sharing of gains/losses has been arrived at and the trued-up ARR is worked out. Revenue is considered based on approval of Hon'ble GERC to change tariff as the approved tariff schedule of Dahej including FPPPA. The trued-up ARR thus worked out is shown in the table below.

Table 1: Revenue Gap/(Surplus) of Dholera Supply Area for FY 2023-24

All figures in Rs. Cr.	Actual
Aggregate Revenue Requirement	19.97
Less: Revenue from Sale of Energy	1.86
Gap/(Surplus) for FY 2023-24	18.11

- 2.8 The total revenue gap along with carrying cost for 2 years is as follows.

Table 2: Total Revenue Gap/ (Surplus) for Dholera Supply Area for FY 2023-24

All figures in Rs. Cr.	Actual
Gap/(Surplus) for FY 2023-24	18.11
Carrying Cost	3.10
Total Gap for FY 2023-24	21.21

- 2.9 TPL-Dholera supply area requests the Hon'ble Commission to kindly approve the revenue gap as mentioned above and allow the recovery of the same with carrying cost.

ARR for MYT Control Period FY 2025-26 to FY 2029-30

- 2.10 The Petitioner is submitting this petition for approval of the Aggregate Revenue Requirement for MYT Control Period from FY 2025-26 to FY 2029-30 and determination of tariff for FY 2025-26 for TPL-DSIR as per the provisions of the MYT Regulations, 2024.
- 2.11 The ARR estimation is based on the assumptions as outlined hereunder:

- a) Sales Forecast: The energy sales for the MYT Control Period have been estimated considering the available information of consumer type, load and usage pattern as per the estimated development plan of Dholera Supply Area.
- b) Distribution losses and O&M Expenses: The distribution loss and O&M expenses have been considered as per the prevailing methodology in the Tariff Policy read with MYT Regulations 2024 & applicable orders of the Hon'ble Commission.
- c) Power Purchase Cost: For MYT control period, the Petitioner proposes to procure power through Bilateral Sources/Power exchange and proposed tie-up of Renewable capacities.
- d) Capital Expenditure Plan: The Petitioner has planned to undertake prudent capital investments for development of state-of-the-art ready-to-serve distribution network so as to cater to the demand of its consumers and provide reliable & quality power. The major capital expenditure of Dholera Supply Area includes includes EHV expenditure schemes, HT expenditure schemes, LT network expenditure schemes, meter management, etc.

2.12 The ARR thus computed for Dholera Supply Area for the MYT Control Period is shown in the table below:

Table 3: ARR of Dholera Supply Area for FY 2025-26 to 2029-30

All Figures in Rs. Crore	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Power Purchase	97.45	174.09	216.78	292.27	364.27
O&M expenses	6.17	6.69	7.22	7.81	8.46
Depreciation	8.16	8.57	9.00	9.57	10.37
Interest on loans	10.05	9.77	9.49	9.34	9.39
Interest on working capital	0.45	0.44	0.18	0.14	-
Interest on SD	0.63	1.09	1.52	2.01	2.55
Bad debts	-	-	-	-	-
Contingency reserve	0.94	1.05	1.16	1.29	1.43
RoE incl. income tax	10.24	10.66	11.10	11.70	12.52
Less: Non-tariff income	0.02	0.02	0.02	0.02	0.02

All Figures in Rs. Crore	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
ARR	134.06	212.33	256.44	334.09	408.97

2.13 The Petitioner would like to further submit that as per the GERC (Demand Side Management) Regulations, 2012, it is required to formulate and submit to the Hon'ble Commission a DSM Plan covering the control period. In turn, the Petitioner will make necessary submission for the DSM plan for FY 2025-26 onwards and the Petitioner shall claim the actual DSM expenses as part of its truing up petitions.

Revenue Gap/ (Surplus) Analysis for FY 2025-26

2.14 The revenue from sale of power has been computed considering the sales & existing tariff rates for different category of consumers which are detailed out in respective formats including revised base FPPPA.

2.15 The petition has considered power purchase for FY 25-26 on pooled base. For FY 2024-25, the Hon'ble Commission has approved the base power purchase cost at Rs. 4.89 per kWh and base FPPPA at Rs. 1.37 per kWh for Dahej SEZ. For FY 2025-26, the estimated weighted average power purchase cost works out to be Rs. 6.27 per kWh as against the base power purchase cost of Rs. 4.89 per kWh. Thus, revised base FPPPA works out to Rs. 2.83 per kWh for Dahej SEZ factoring the adjustment to PPC. The revenue for FY 2025-26 is estimated by considering the revised base FPPPA as estimated of Rs. 2.83 per kWh for Dahej SEZ & Dholera Supply Area.

Table 4: Revenue Gap/ (Surplus) of Dholera Supply for FY 2025-26

All figures in Rs. Crores	
ARR	134.06
Less:	
Revenue from sale of power at existing tariff rates including Revised base FPPPA	111.84
Gap/ (Surplus)	22.22

2.16 The Petitioner submits to the Hon'ble Commission to consider the FPPPA and gap/ (surplus) as proposed by it.

2.17 The Petitioner has also calculated carrying cost as per the settled principle.

- 2.18 The summary of cumulative revenue gap/ (surplus) for determination of tariff FY 2025-26 is shown in the following table.

**Table 5: Cumulative Revenue Gap/ (Surplus) for determination of tariff
Of Dholera Supply Area for FY 2025-26**

All figures in Rs. Crores	
Gap/ (Surplus) of FY 2023-24	18.12
Carrying Cost	3.10
Gap/ (Surplus) of FY 2025-26	22.22
Cumulative Gap/ (Surplus)	43.43

- 2.19 The Petitioner proposes to recover part of the cumulative gap by way of implementation of the proposed revised tariff of Dahej SEZ from 1st April 2025. The balance gap shall be addressed at the time of truing up of FY 2025-26.
- 2.20 For FY 2025-26, the Petitioner proposes to continue “Green Tariff” of Rs.1.00 per unit.

Chapter 3: True-up for FY 2023-24

- 3.1 The the Hon'ble Commission has been pleased to approve the business plan for FY 2023-24 and also permitted to levy the tariff of Dahej SEZ area, as amended from time to time, to the consumers of DSIR during FY 2023-24. In turn, TPL-DSIR has commenced its Commercial Operation from Quarter 3 of FY 2023-24.
- 3.2 In this section, the true up of FY 2023-24 has been proposed based on the actual performance of the business as per the GERC MYT Regulation, 2016.
- 3.3 The scope for truing up exercise is as specified in Regulation 16.2 (iii), 17.2 (b) read with 21.3 of the GERC MYT Regulation, 2016.
- 3.4 Based on the above, the Petitioner prays to the Hon'ble Commission to allow the computation of uncontrollable costs and sharing of gains/losses as submitted by the Petitioner in the following Section.

Demand & Sales

- 3.5 Demand & Sales form a vital part of a tariff filing exercise as it forms the basis for revenue computation and also the computation of power purchase expenditure. In this section, the Petitioner has furnished the details of the actual demand and sales of FY 2023-24.
- 3.6 Category-wise number of Consumers – It may kindly be noted that Dholera supply area has commenced operations from Q3 FY 2023-24. In turn, the Petitioner has energised 11 no. of service connections which include primarily industrial & commercial services. The details of actual number of consumers for FY 2023-24 are tabulated below:

Table 6: Category-wise number of Consumer for FY 2023-24

Category	Actual
Non RGP	1
LTMD	4
Street light	3
HTP-1	2
HTP-2	1
Total	11

- 3.7 Demand – In its Business Plan, the Petitioner had estimated the demand of 11 MW. However, the actual demand registered during FY 2023-24 is only 4.81 MW. This is primarily due to and slower pace of initial development. The details of actual demand for FY 2023-24 are tabulated below:

Table 7: Actual Demand (MW) for FY 2023-24

Particular (in MW)	Actual
Demand	4.81

- 3.8 Energy Sales to the Consumers - In its Business Plan, the Petitioner had estimated the sales of 1.14 MUs for FY 2023-24. The actual sales during FY 2023-24 is 1.61 MUs. The major categories for sales is LTMD & HT services.–The anchor consumer in Dholera supply area has total sales of 1.33 MUs. Based on the above facts, the actual categorywise sales for Dholera supply area during FY 2023-24 is tabulated below.

Table 8: Energy Sales to Consumers for Dholera Supply Area in FY 2023-24 (In MUs)

Category	Actual
Non RGP	0.00
LTMD	0.05
Street light	0.04
HTP-1	1.48
HTP-2	0.04
Total Sales	1.61

Distribution Loss

- 3.9 Considering the requirement of state-of-art distribution network for Dholera supply area, the Petitioner has created the ready-to-serve network. While the Petitioner had expected higher demand during FY 2023-24, the same was subsequently revised. In turn, the actual demand and sales being lower than estimated, the actual distribution loss for FY 2023-24 is 0.68 Mus.
- 3.10 The Petitioner submits that DSIR being at nascent stage of development, due to lower loading of network, the distribution losses particularly the technical losses are higher. The details are as under.

Table 9: True-Up of Distribution Loss of Dholera Supply Area (in MUs)

Particulars	Actual
Distribution Loss	0.68

- 3.11 The Petitioner requests the Hon'ble Commission to kindly treat distribution loss as uncontrollable factor till the DSIR achieves maturity.

Energy Requirement

- 3.12 Based on the actual energy sales, transmission & distribution loss units, the actual energy requirement for Dholera License area has been furnished below.
- 3.13 During initial period, there was an error in implementation of metering arrangement at injection point with GETCO. Same has been brought in notice of GETCO and corrected prospectively. TPL-D(DSIR) is also pursuing GETCO for correction of the same for past period.

Table 10: Energy Requirement of Dholera Supply Area for FY 2023-24

(All figures in MUs except mentioned otherwise)

Particulars	Actual
Energy Sales	1.61
Distribution loss (in Mus)	0.68
Energy input at distribution level	2.29
Transmission loss	0.28
Energy Requirement	2.57

Energy Availability

- 3.14 Since the DSIR supply area is at nascent stage, the sales have not stabilised. Accordingly, the total energy requirement for FY 2023-24 has been met through IEX.

Power Purchase Cost

- 3.15 The quantum of power purchase depends on energy sales and distribution & transmission loss and the mix of power purchase depends on availability & cost of different sources at a point of time.
- 3.16 The actual power purchase for FY 2023-24 is provided in the table.

Table 11: Power Purchase Cost for Dholera Supply Area in FY 2023-24

All figures in Rs. Cr.	Actual
Power Exchange	2.83

3.17 As per the Regulation, the variation in power purchase cost is uncontrollable except on account of variation in distribution losses and hence the same needs to be allowed in truing up exercise. However, the Petitioner has considered the variation on account of Distribution loss as uncontrollable.

3.18 Based on the above, the actual power purchase cost for Dholera supply area is Rs. 2.83 Crore.

Renewable Power Purchase Obligation

3.19 The Petitioner submits that Regulation 4.1 of the GERC (Procurement of Energy from Renewable Energy Sources) Regulation, 2010 specifies the Renewable Power Purchase Obligation (RPPO). Subsequently, the Hon'ble GERC vide its notification no. 1 of 2022 dated 8th April, 2022 notified the GERC (Procurement of Energy from Renewable Sources) (Third Amendment) Regulations, 2022 specifying RPPO for FY 2023-24.

3.20 The Petitioner submits that it has duly complied with the RPO target for the year 2023-24 in accordance with the provision of the RPO Regulation. The renewable energy requirement and status of compliance for FY 2023-24 is as under:

Table 12: Renewable Power Purchase Obligation for Dholera Supply Area in FY 2023-24

Particulars	MUs
Energy Requirement	2.57
Obligation	
Wind energy to be procured (@8.40%)	0.22
Solar energy to be procured (@9.50%)	0.25
Hydro energy to be procured (@0.05%)	0.00
Biomass/Bagasse/Others (@0.75%)	0.02
Total (18.70%)	0.48
Compliance (Non-Solar)	
Wind	0.704
Non Solar-REC	-

Particulars	MUs
Compliance (as % of Energy Requirement)	27.46%
Compliance (Hydro)	
Hydro	0.058
Hydro REC	-
Compliance (as % of Energy Requirement)	2.25%
Compliance (Solar energy)	
Solar	0.298
Solar-REC	-
Compliance (as % of Energy Requirement)	11.60%

3.21 The Petitioner shall separately approach the Hon'ble Commission in the matter of revision of minimum quantum of purchase (in%) from renewable energy sources for the year FY 2023-24 in accordance with the RPO Regulations.

Fixed Cost

Operation & Maintenance (O&M) Expenses

3.22 The actual O&M expense for FY 2023-24 is given in the table below.

Table 13: O&M Expenses of Dholera Supply Area in FY 2023-24

All figures in Rs. Cr.	Actual
Operation & Maintenance Expenses	1.29

3.23 The Petitioner would like to submit it is developing its distribution network as per the actual pace of industrial development taking place in the Dholera supply area. In turn, only need based O&M expenses has been incurred

3.24 The Petitioner submits that the Dholera supply area is still in developmental stage and demand is yet to stabilize. Accordingly, the Petitioner requests the Hon'ble Commission to treat the O&M expense as uncontrollable factor.

Capital Expenditure

3.25 In its Business Plan, the Petitioner had clarified that it has incurred capital expenditure

of Rs. 205.40 Crore till FY 2022-23 and proposed capital expenditure of Rs. 23.88 Crore during FY 2023-24.

- 3.26 In turn, the actual capital expenditure incurred by Dholera supply Area during FY 2023-24 is Rs 8.36 Crore in addition to the capital expenditure incurred of Rs. 197.40 Crore. The details of the capital expenditure are provided in the following table.

Table 14: Capital Expenditure for Dholera Supply Area in FY 2023-24

All figures in Rs. Cr.	Actual	
	Upto FY 2022-23	FY 2023-24
EHV Network	191.31	3.81
HT Network	6.10	4.46
LT Network	-	0.08
Meter Management	-	0.02
Total	197.40	8.36

- 3.27 The details of actual expenditure incurred are enumerated hereunder:

- a) EHV Network: Post receipt of Distribution License, the Petitioner has established an interim substation of 66/11 kV at Location 3A to cater to the immediate power requirement of the SIR area. The interim substation will source electricity from GETCO's Dholera substation at 66 kV. Further work of establishing connectivity upto GETCO's Dholera substation has also been completed by TPL. This interim substation has been energised during FY 2023-24.

The Petitioner has established 400/220/33/11 kV substation at Location 4A which has been commissioned initially at 220 kV level and shall be connected with GETCO Fedra /Solar Park Substation. Subsequent upgradation to 400kV level will be done as per load growth in the SIR area. During FY 2023-24, TPL has energised the 220kV/33kV/11kV Gas Insulated Substation.

The Petitioner has also energised one service at 33kV during FY 2023-24.

The details of capital expenditure incurred are provided below.

Table 15: Capital Expenditure of EHV Network in FY 2023-24

All figures in Rs. Cr.	Actual	
	Upto FY 2022-23	FY 2023-24
EHV Network		
Substation at Location 4A	135.71	1.79
Substation at Location 4B	7.27	0.02
Ring Network	17.49	1.09
Sub-Total	160.47	2.90
33kV SS Projects		
Substation at Location 3A	29.32	0.90
Substation at Location 3C	1.51	0.00
Sub-Total	30.83	0.90
Total	191.31	3.81

- b) HT Network: In order to cater the requirement of its customers, the Petitioner has incurred the capex of Rs. 6.10 Crore upto FY 2022-23 to create ready to serve distribution network. Further, during FY 2023-24, capex of Rs. 4.46 Crore has been incurred to energise 2 nos. of HT services.

Table 16: Capital Expenditure of HT Network in FY 2023-24

All figures in Rs. Cr.	Actual	
	Upto FY 2022-23	FY 2023-24
HT Network	6.10	4.46

- c) LT Network: In order to cater the requirement of its customers, the Petitioner has incurred the capex of Rs. 0.08 Crore during FY 2023-24 and energised 8 nos. of LT connections.

Table 17: Capital Expenditure of LT Network in FY 2023-24

All figures in Rs. Cr.	Actual	
	Upto FY 2022-23	FY 2023-24
LT Network	-	0.08

- d) Meter Management: The Petitioner has incurred the capital expenditure of Rs. 0.02 Crore for installation of AMR meters for energisation of new connection.

Table 18: Capital Expenditure of Metering in FY 2023-24

All figures in Rs. Cr.	Actual	
	Upto FY 2022-23	FY 2023-24
Meter Management	-	0.02

The details of capitalisation are as under.

Table 19: Capitalization for Dholera Supply Area in FY 2023-24

All figures in Rs. Cr.		Actual
Opening GFA	(a)	0.02
Addition to GFA	(b)	178.48
Deletion to GFA	(c)	-
Closing GFA	(d)=(a)+(b)-(c)	178.51
SLC Addition	(e)	8.94
Capitalization for Debt	(f)=((b)-(c)-(e))	169.55
Capitalization for Equity	(g)=((b)-(c)-(e))	169.55
Normative debt @ 70%	(h)=(f)*70%	118.68
Normative Equity @ 30%	(i)=(g)*30%	50.86

Interest Expenses

- 3.28 The Petitioner submits that the GERC (MYT) Regulations, 2016 provides for the calculation of interest expenses on normative basis considering the amount of depreciation of assets as the amount of repayment.
- 3.29 The Petitioner has calculated the interest expenses by applying Weighted Average Rate of interest of the prevailing loan portfolio of Ahmedabad license area as per Regulation 38.5(5) MYT Regulations 2016 during the year on the loan component while repayment has been considered equal to the depreciation of the assets for the year.
- 3.30 The actual interest expenses for FY 2023-24 are shown in the table below.

Table 20: Interest Expense for Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Addition to GFA	178.48
Less: Deletions from GFA	-
Less: SLC additions	8.94
Capitalisation for Debt	169.55
Normative Debt @ 70%	118.68
Opening Balance of Loans	-
Repayments	5.73
New Borrowings	118.68
Closing Balance of Loans	112.95
Average Loan	56.48
Interest Expense @8.58%	4.85
Other Borrowing Cost	0.01

- 3.31 The total interest expenditure is furnished in the following table for the consideration of the Hon'ble Commission.

Table 21: Total Interest Expense for Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Interest Expenses	4.86

- 3.32 The Petitioner requests the Hon'ble Commission to approve the above mentioned interest expenses. The interest expense is to be treated as uncontrollable as it depends on the quantum of actual capitalization and the variation in the interest rates.

Interest on Security Deposit

- 3.33 The actual interest expense on security deposit considering the rate of interest of 6.75% paid to consumers based on Bank Rate is submitted in the table below for the approval of the Hon'ble Commission for FY 2023-24.

Table 22: Interest on Security Deposit of Dholera Supply Area for FY 2023-24

All Figures in Rs. Cr.	Actual
Interest on Security Deposit	0.0037

- 3.34 The Petitioner requests the Hon'ble Commission to approve the above-mentioned

interest on security deposit expenses. The variation in interest on security deposit is uncontrollable.

Interest on Working Capital

3.35 The working capital requirement is arrived at as per the MYT Regulations, 2016. The computation is provided in the table below for the approval of the Hon'ble Commission.

Table 23: Interest on Working Capital of Dholera Supply Area for FY 2023-24

All Figures in Rs. Cr.	Actual
O&M expense for 1 month	0.11
1 % of GFA for maintenance spares	0.00
Receivables for 1 month	0.15
Less: Security Deposit	0.24
Normative Working Capital	0.03
Interest Rate (%)	11.07%
Interest on Working Capital	0.0029

3.36 The Petitioner has requested the Hon'ble Commission to consider the interest on working capital as uncontrollable.

Depreciation

3.37 The depreciation rates in accordance with MYT Regulations, 2016 are applied on the opening GFA and for the assets capitalized during the year. The total depreciation arrived at, as described above, is shown in the table below.

Table 24: Depreciation for Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Depreciation	5.73

3.38 The Petitioner requests the Hon'ble Commission to approve the depreciation as mentioned above. It further submits that depreciation amount is to be treated as uncontrollable.

Return on Equity

3.39 The closing balance of equity has been arrived at considering additional equity of 30% of the capitalisation during the year. The return on equity has been computed by

applying a rate of 14% on the average of opening balance & closing balance of equity.

Table 25: Return on Equity (RoE) for Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Opening Equity	-
Equity addition during the year	50.86
Equity at end of the year	50.86
Average of Opening and Closing	25.43
Return on Equity	3.56

3.40 The Petitioner requests the Hon'ble Commission to consider the variation in ROE as uncontrollable and allow the same for the purpose of truing up

Income Tax

3.41 For FY 2023-24, the Petitioner has claimed the Income Tax based on the actual tax paid in proportion to the PBT of Dholera supply area. Accordingly, the Petitioner has claimed income-tax of Rs. 1.73 Cr. for the FY 2023-24.

Table 26: Income Tax for Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Income Tax	1.72

3.42 The Petitioner has requested the Commission to consider the Income Tax as uncontrollable.

Bad Debts Written Off

3.43 The Petitioner submits that it has not written off any bad debts for the FY 2023-24. Accordingly, it has not claimed any bad debts.

Table 27: Bad debts written off for Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Bad debts written off	-

Contingency reserve

3.44 The Petitioner has considered 0.5% of the cost of fixed assets towards the contingency reserve as shown in the table below in line with the GERC (MYT) Regulations, 2016.

Table 28: Contingency Reserve for Dholera Supply Area in FY 2023-24

All Figures in Rs. Lakhs	Actual
Contingency Reserve	0.0001

3.45 The Petitioner has requested the Commission to approve the contingency reserve for the purpose of truing up.

Non-tariff Income

3.46 The actual Non-tariff income of Dholera supply area is Rs. 0.02 Cr. for the FY 2023-24.

Table 29: Non-Tariff Income of Dholera Supply Area in FY 2023-24

All Figures in Rs. Cr.	Actual
Non-Tariff Income	0.02

3.47 The Petitioner submits that the non-tariff income is uncontrollable. Accordingly, it requests the Hon'ble Commission to allow the Non-Tariff Income as uncontrollable for the purpose of truing up.

Revenue Requirement of Dholera Supply Area

3.48 The Aggregate Revenue Requirement for the Dholera supply area for FY 2023-24 is shown in the table below:

Table 30: True Up for Dholera Supply Area for FY 2023-24

All Figures in Rs. Cr.	Actual
Power Purchase	2.83
O&M expenses	1.29
Interest on loans	4.86
Interest on SD	0.0037
Interest on working capital	0.0029
Depreciation	5.73
Bad debts written off	-
Contingency reserve	0.0001
RoE	3.56
Income Tax	1.73
Less: Non-tariff income	0.02
ARR	19.97

3.49 The Petitioner requests the Hon'ble Commission to kindly approve the ARR submitted hereinabove.

Revenue Gap of FY 2023-24

3.50 The actual ARR and the actual revenue from sale of power for FY 2023-24 is as under.

Table 31: Revenue gap for Dholera Supply Area for FY 2023-24

All figures in Rs. Cr.	Actual
Aggregate Revenue Requirement	19.97
Less: Revenue from Sale of Energy	1.86
Gap/(Surplus) for FY 2023-24	18.11

3.51 The actual revenue gap along with carrying cost for FY 2023-24 is as shown below:

Table 32: Revenue Gap for Dholera supply area for FY 2023-24 with carrying cost

All figures in Rs. Cr.	Actual
Gap/(Surplus) for FY 2023-24	18.11
Carrying Cost @8.57% on Gap of FY 2023-24	3.10
Total Gap for FY 2023-24	21.21

3.52 The Petitioner requests the Hon'ble Commission to approve the actual revenue gap along with carrying cost and allow the recovery of this gap in tariff of FY 2025-26.

Chapter 4: ARR for Control Period FY 2025-26 to FY 2029-30

Background

- 4.1 The Hon'ble Commission has notified the GERC Multi Year Tariff Regulations, 2024 (hereinafter referred to as MYT Regulations, 2024) for the MYT control period of FY 2025-26 to FY 2029-30. Accordingly, the Petitioner has arrived at the ARR for the MYT Control Period FY 2025-26 to FY 2029-30 for Dholera Supply Area by computing each of the components as per the Regulations and principles enunciated by the Hon'ble Commission in the MYT Regulations, 2024 along with applicable rules/regulations as the case may be
- 4.2 This section contains the projections of each of the component of ARR, such as, power purchase cost, O&M cost, Interest cost, etc. The ARR and the consequent revenue gap/ (surplus) are thus estimated to formulate the tariff proposal. The explanations for each of the elements have been furnished in the subsequent sections for the kind consideration and approval of the Hon'ble Commission.

Demand and Sales Projection

- 4.3 The license area of Dholera supply area commenced commercial operations from Q3 FY 2023-24 and is still at nascent stage. The development of the license area is likely to continue at a gradual pace. Thus, it is difficult to carry out sales projections accurately on the basis of any statistical method. In turn, the Petitioner has endeavoured to relate the various factors and available information to estimate the sales projections.
- 4.4 The sales projections in Dholera supply area have been carried out based on projections of demand requirements within the SIR. Currently, the SIR has majority industrial consumption with a negligible contribution from other consumer categories. The industrial unit holders initially seek power for construction & testing and later on for production. The Petitioner has considered the inputs received during interaction with some of the existing as well as prospective consumers. However, the same may vary with pace at which the development of the SIR takes place based on the economic scenario and the Government policies.

- 4.5 In order to make the projections for the MYT control period, the actual demand of existing customers (plot allotted and connection availed) has been taken as the base for the demand projection. Each existing customer of Dholera has been reviewed and the effect of extension / reduction and their final demand has been worked out for the projected period.
- 4.6 For the customer who has already taken possession of the plot and electricity connection has not been availed, based on personal interaction, demand for these customers have been projected for the control period. For the common/open plots, the demand has been considered based on inputs from DICDL authority.
- 4.7 The major industrial unit which has started commercial operations in FY 2023-24 is expected to continue at the same level for the entire MYT Control period. TPL Dholera supply area has also given due consideration to the extension/reduction of load planned by all major consumers.
- 4.8 Based on the above factors the Demand in MW projection for the period FY 2025-26 to 2029-30 is as under:

Table 33: Demand of Dholera Supply Area for MYT Control Period

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Demand (MW)	40.78	57.98	76.88	98.39	122.50

- 4.9 Considering growth in demand and trend of load factor, the sales projection has been done for the control period FY 2025-26 to FY 2029-30.
- 4.10 The Regulation 107.2 of the MYT Regulations, 2024 provides for consideration of three scenarios for forecasting of sales i.e. Optimistic scenario, Business As Usual (BAU) scenario & Pessimistic scenario. During the previous control period, the Hon'ble Commission has notified the Green Energy Open Access Regulations and Net Metering Regulations which encourages consumers to source green power through open access and set up rooftop solar projects. Since Dholera supply area is at nascent stage of development, the impact of these Regulations have been considered at par with the prevailing trend. Considering growth in demand, the sales projection has been done for the control period FY 2025-26 to FY 2029-30 as under:

4.11 LT – For all three scenarios- BAU, optimistic, pessimistic, the sales is worked out based on existing trend of load factor and increase in demand of existing as well as prospective customers based on interaction. For residential/commercial units, in BAU scenario around 1.8 MW demand is estimated to be energised by FY 2025-26. Whereas, in pessimistic scenario around 0.75 MW demand is considered and in optimistic scenario around 2.32 MW demand has been considered to be energized by FY 2025-26. Further, for industrial consumers, additional 0.53 MW is expected to be energised in BAU scenario, 0.25 MW in pessimistic scenario, and 0.73 MW in optimistic scenario. Additionally, considering nascent stage of operations, no likely impact of open access or solar net metering has been considered.

Based on the above, the scenario wise sales projection (MUs) of LT category is as under:

Table 34: Sales of LT category for MYT Control Period (in MUs)

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
BAU					
RGP	-	1.01	1.62	2.31	2.95
Non RGP	0.45	1.01	1.62	2.31	2.95
LTMD	1.46	3.70	5.95	8.48	10.81
Others	1.07	1.01	1.62	2.31	2.95
Pessimistic					
RGP	-	-	-	-	-
Non RGP	0.22	0.44	0.69	0.99	1.36
LTMD	1.43	2.82	4.37	6.31	8.63
Others	0.03	0.06	0.08	0.12	0.17
Optimistic					
RGP	-	1.05	1.65	2.35	3.00
Non RGP	0.50	1.05	1.65	2.35	3.00
LTMD	1.50	3.75	6.00	8.50	10.85
Others	1.10	1.05	1.65	2.35	3.00

4.12 HT- For all three scenarios- BAU, optimistic, pessimistic, the sales is worked out based on existing trend of load factor and increase in demand of existing as well as prospective customers based on interaction. The phasing of energisation of consumers has been estimated basis the scenario of projection.

For EHV consumer in BAU and Optimistic scenario, it is proposed that consumer shall take load upto 18 MW by October, 2024. Whereas, in Pessimistic scenario consumer shall take load upto 18 MW by November, 2024. Additionally, one consumer with 15 MW demand is expected during FY 2026-27 under BAU and Optimistic scenario.

Further, for HV consumer, in BAU scenario, it is proposed to energize 14.9 MW by FY 2025-26 whereas in optimistic scenario, it is proposed to energize 15.1 MW. However, in pessimistic scenario, it is proposed to energize 1 MW by FY 2024-25 without any further addition.

Additionally, considering nascent stage of operations, no likely impact of open access or solar net metering has been considered. Based on the above, the scenario wise sales projection (MUs) of LT category is as under.

Table 35: Sales of HT category for MYT Control Period (in MUs)

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
BAU					
HTP-I	140.38	246.78	325.62	448.52	550.66
HTP-II	3.32	4.46	5.24	6.31	7.60
Pessimistic					
HTP-I	126.10	157.09	193.99	230.89	273.70
HTP-II	0.75	1.23	1.70	2.17	2.65
Optimistic					
HTP-I	167.56	289.76	411.96	535.48	689.88
HTP-II	3.35	4.50	5.25	6.35	7.65

4.13 Based on the above factors the Category wise net Sales (MUs) projection for Business As Usual scenario for the period FY 2025-26 to FY 2029-30 is as under:

Table 36: Category Wise Energy Sales of Dholera Supply Area for MYT Control Period (in MUs)

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
RGP	-	1.01	1.62	2.31	2.95
Non RGP	0.45	1.01	1.62	2.31	2.95
LTMD	1.46	3.70	5.95	8.48	10.81
HTP-I	140.38	246.78	325.62	448.52	550.66
HTP-II	3.32	4.46	5.24	6.31	7.60

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Others	1.07	1.01	1.62	2.31	2.95
Total	146.68	257.97	341.67	470.26	577.91

Distribution Losses

4.14 The Petitioner submits that Dholera Supply Area is at nascent stage of development. Since the license area is yet to achieve the critical volume of sales, the actual distribution loss for FY 2023-24 is comparatively higher. As the loading increases, the Petitioner submits that the loss levels will gradually decrease and stabilise. However, basis the development of the network, loading of network, feeder length, network voltage levels, etc. the distribution loss level shall vary.

4.15 In turn, at present, the Petitioner has estimated the distribution loss in the range of 5.00%, for the MYT Control Period FY 2025-26 to FY 2029-30.

Table 37: Distribution Loss of Dholera Supply Area for MYT Control Period

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Distribution loss (%)	5.00%	5.00%	5.00%	5.00%	5.00%

4.16 Based on above, the Petitioner requests the Hon'ble Commission to approve the distribution losses as proposed. The Petitioner submits that considering the nascent stage of operations of Dholera Supply Area, the Distribution Losses should be considered on actual basis at the time of truing up.

4.17 The Petitioner would also like to submit that performing utility cannot be penalized for its sustained performance. Instead, the petitioner strongly feels that Hon'ble Commission should adopt mechanism to incentivize the performing utility. The Petitioner has been representing the same since last few years and considering start of new control period, the Petitioner requests the Hon'ble Commission to consider such mechanism.

Energy Requirement and Energy Availability

4.18 Based on the energy sales forecast, estimation of distribution loss and transmission loss,

the total energy requirement for the MYT Control Period is estimated. The total energy requirement thus arrived is shown in the table below for the approval of the Hon'ble Commission:

Table 38: Energy Requirement for MYT Control Period

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Energy Sales (MU)	146.68	257.97	341.67	470.26	577.91
Distribution loss (%)	5.00%	5.00%	5.00%	5.00%	5.00%
Distribution loss (MU)	7.72	13.58	17.98	24.75	30.42
Energy input at distribution level	154.40	271.54	359.65	495.01	608.33
EHV Loss (MUs @ 0.6%)	0.93	1.64	2.17	2.99	3.67
Transmission losses	-	-	17.03	22.60	22.60
TPL-Dholera Energy Requirement	155.33	273.18	378.85	520.60	634.60
TPL-Dahej Energy Requirement	871.91	891.02	909.14	919.79	930.60
Total Energy Requirement	1,027.24	1,164.21	1,288.00	1,440.38	1,565.20

- 4.19 Accordingly, during the MYT Control Period, the Petitioner has proposed to pool the power purchase arrangements for the license areas of Dahej SEZ, Dholera SIR, and Mandal Becharaji SIR being the license areas with similar mix of customers with bulk loads and pertaining to continuous process industries. It may kindly be noted that TPL has approached GETCO for connectivity in MBSIR License Area. Upon operationalization of the Connectivity, TPL will commence the Operations in MBSIR License Area. Sales will be taken up as per actual at the time of Truing-up.
- 4.20 In turn, the Petitioner proposes to source power from bilateral sources/power exchange to fulfill the power requirement of its license areas. It may kindly be noted that due to variability of demand, the Petitioner will take necessary steps as may be required.
- 4.21 The Hon'ble Commission has specified the Renewable Purchase Obligation (RPO) as per the GERC (Procurement of Energy from Renewable Sources) Regulations, 2010 read with the Amendment. The Hon'ble Commission has also issued draft RPO amendment to bring the RPO trajectory in line with RPO trajectory specified by Ministry of Power. Accordingly, the Petitioner has estimated the availability of renewable energy for MYT Control Period from the proposed tie-up of RE Power.

- 4.22 The Petitioner would like to further submit that CEA has yet to initiate the Resource Adequacy Studies for SEZ/SIR areas like Dholera supply area being small license area and under nascent stage of development. In turn, the Petitioner shall keep the Hon'ble Commission duly apprised.
- 4.23 Based on all the above, the Petitioner submits to the Hon'ble Commission to approve the power purchase quantum as proposed hereunder.

Table 39: Power Purchase for MYT Control Period (In MUs)

Particulars	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Bilateral/IEX	957.88	1,094.85	535.44	464.37	589.18
Renewable	69.36	69.36	752.55	976.02	976.02
Sub-Total	1,027.24	1,164.21	1,288.00	1,440.38	1,565.20
Add: Sale of surplus power/UI	-	-	-	-	-
Total	1,027.24	1,164.21	1,288.00	1,440.38	1,565.20

Power Purchase Cost

- 4.24 Based on the energy quantum estimated in table above, the power purchase cost for each of the sources is computed. The source-wise power purchase cost rate is provided in the following sections.
- Bilateral/ Power Exchange – The power purchase rate for bilateral sources/ power exchange is arrived at by considering the likely market conditions and considering the current trends.
 - Renewable Power Purchase Cost- The Petitioner has estimated the purchase of power from the proposed tie-up capacities of renewable energy sources to fulfil the Renewable Power Purchase Obligation. Accordingly, the Petitioner has arrived at the renewable power purchase cost.
- 4.25 The Petitioner will exercise various options with due commercial prudence with respect to sourcing of power. The details of Power purchase for the control period are shown below:

Table 40: Power purchase cost for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Bilateral/IEX	558.53	643.03	316.17	271.57	348.24
Renewable	23.74	23.74	355.05	463.47	463.47
Transmission Charges	62.17	75.13	65.77	73.59	86.74
Total	644.45	741.91	736.99	808.64	898.45

4.26 Based on the above the Petitioner requests the Hon'ble Commission to approve the power purchase cost of Rs. 97.45 Cr. for FY 25-26, Rs. 174.09 Cr. for FY 26-27, Rs. 216.78 Cr. for FY 27-28, Rs. 292.27 Cr. for FY 28-29 and Rs. 364.27 Cr. for FY 29-30 for Dholera Supply area.

Operations and Maintenance (O&M) Expenses

4.27 The O&M Expenses are mainly driven by business growth, inflation, standards of performance, conditions of existing assets, increase in network & safety norms.

4.28 Regulation 104.1 of MYT Regulation 2024 provides that the O&M expense shall be derived on the basis of the average of the actual audited O&M expense for the past ten years ending March 31, 2024. Further, it also provides that the average of ten year audited O&M expense shall be considered as O&M expense for March 31, 2019 and shall be escalated at the respective escalation rate of FY 2019-20, FY 2020-21, FY 2021-22, FY 2022-23 and FY 2023-24 to arrive at the O&M expense for the base year ending March 2024. Since Dholera supply area has commenced operations only from Q3 FY 2023-24, the Petitioner has considered the k-factor as per Dahej SEZ area and used the actual O&M expense figure of FY 2023-24 to estimate the O&M expenses for MYT Control Period.

4.29 The Petitioner has projected the O&M expenses for MYT Control Period by escalating the base O&M Expense at FY 23-24 as per the formula provided in MYT Regulations, 2024. Accordingly, the O&M expenses arrived through this methodology for Dholera Supply Area is shown in the table below.

Table 41: O&M expenses of Dholera Supply Area for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
O & M Cost	6.17	6.69	7.22	7.81	8.46

4.30 It may kindly be noted that the SIR is still in developmental stage and demand is yet to stabilize. Thus, there will be appreciable variation in the O&M expenses. In turn, the Petitioner requests that O&M expense may be considered on actual basis at the time of truing up.

4.31 It may kindly be noted that the above O&M expenses does not take into account the expenses such as the wage revision, change in law, etc.

Capital Expenditure

4.32 It may kindly be noted that in Dholera supply area, the Petitioner has incurred the necessary capital expenditure to create ready-to-serve, state-of-art, underground skeletal distribution network. Post commencement of operations, the distribution network in Dholera supply area will increase to cater the requirement of customers and provide reliable power.

4.33 The Petitioner has projected the capital expenditure to the extent of Rs. 138.33 Crores for the control period FY 2025-26 to FY 2029-30. The summary of planned capital expenditure for MYT period is shown in the table below for the approval of the Hon'ble Commission.

Table 42: Capital Expenditure for Dholera Supply Area for MYT Control Period

All Figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
EHV Network	9.01	8.82	9.36	9.76	10.28
HT Network	12.70	13.23	15.40	18.03	24.53
LT Network	0.61	0.67	0.89	1.16	1.43
Meter Management	0.15	0.18	0.19	0.19	0.23
Others	0.25	0.25	0.31	0.35	0.35
Total	22.72	23.16	26.14	29.49	36.82

4.34 The details of major capital expenditure for MYT control period are provided in the following sections:

a) EHV Network:

- 33kV Consumer: During the control period, the Petitioner has proposed energisation of total 5 nos. of 33 kV HT consumers during the MYT control period. These consumers shall be connected to existing 220 kV 4A Substation or nearby EHV Substations basis optimal network configuration.

Table 43: Capital Expenditure for EHV Network for MYT Control Period

All Figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
EHV Network	9.01	8.82	9.36	9.76	10.28

b) HT Network:

- New Substation: During MYT Control Period, the Petitioner has proposed to incur capex of Rs. 39.84 Crore towards energization of 86 nos. of new distribution substation/compact substation to cater to the load growth.
- New HT Consumers: The Petitioner has proposed to incur capex of Rs. 18.56 Crore towards energisation of 50 nos. of new 11kV HT consumers during MYT Control Period.
- Normal load growth schemes/ New Feeders: The Petitioner has proposed to incur capex of Rs. 20.69 Crore towards 13 nos. new feeder schemes during MYT control period to create ready-to-serve network.
- Supporting Infrastructure: The Petitioner has proposed to incur capex of Rs. 4.80 Crore towards the supporting infrastructure and various testing & measuring equipments.

The summary of expenditure planned for the above described items is provided in the table below:

Table 44: Capital Expenditure for HT Network for MYT Control Period

All Figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
HT Network					
New Substation	5.10	5.56	7.41	9.73	12.05
HT Consumers	2.97	3.71	3.71	3.71	4.45
Normal load growth schemes/new feeders	3.13	3.76	4.07	4.39	5.33
Supporting Infrastructure	1.50	0.20	0.20	0.20	2.70
Total	12.70	13.23	15.40	18.03	24.53

c) **LT network:**

- **New Services:** The Petitioner has proposed to incur capex towards creating LT network for energisation of 188 no. of LT consumers during the control period.
- **Network Augmentation:** The Petitioner has proposed to incur capex towards network augmentation/ modification for processing extension/reduction of load applications.

Table 45: Capital Expenditure for LT Network for MYT Control Period

All Figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
LT Network					
New Services	0.61	0.54	0.62	0.81	1.00
Network Augmentation	-	0.13	0.27	0.35	0.43
Total LT	0.61	0.67	0.89	1.16	1.43

- d) **Meter Management:** The Petitioner has proposed to incur the capex of Rs. 0.95 Crore towards installation of AMR meters for energization of new services.

Table 46: Capital Expenditure for Metering for MYT Control Period

All Figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Normal Load Growth	0.15	0.18	0.19	0.19	0.23

e) **Other Dept.:**

- **Store:** During the MYT control period, the Petitioner has incurred capex of Rs.

0.31 Crore towards store and material handling.

- Miscellaneous: During the MYT Control Period, the Petitioner has proposed to incur capex of Rs. 1.20 Crore towards various office infrastructure, surveillance and security works.

The summary of expenditure planned for the above described items is provided in the table below:

Table 47: Capital Expenditure for Others for MYT Control Period

All Figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Others					
Miscellaneous	0.20	0.20	0.25	0.25	0.30
Store	0.05	0.05	0.06	0.10	0.05
Total	0.25	0.25	0.31	0.35	0.35

Interest Expenses

- 4.35 The capital expenditure for the MYT Control Period will be funded through a debt equity ratio of 70:30 as per the MYT Regulations, 2024. The debt component is estimated in the table below:

Table 48: Capitalisation of Dholera Supply Area for MYT Control Period

All Figures in Rs. Crores		FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Opening GFA	a	187.16	209.37	232.03	257.64	286.58
Addition to GFA	b	22.21	22.66	25.61	28.94	36.24
Deletion to GFA	c	-	-	-	-	-
Closing GFA	d=a+b-c	209.37	232.03	257.64	286.58	322.82
SLC Addition	e	13.91	15.72	16.18	16.64	18.43

- 4.36 The Petitioner submits that Regulation 33.2 of MYT Regulations, 2024 provides for the calculation of interest expenses on normative basis considering the amount of depreciation of assets as the amount of repayment. The Petitioner has considered the interest expenses as per the MYT Regulations, 2024 on normative loans.

4.37 The Petitioner has considered anticipated Rate of interest of 1 yr MCLR + 0.5% while repayment has been considered equal to the depreciation of the assets for the year.

4.38 The interest expense thus proposed for Dholera Supply area is shown in the table below for approval of the Hon'ble Commission:

Table 49: Interest Expenses of Dholera Supply Area for MYT Control Period

All figures in Rs. Crore	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Opening Balance of Loans	110.99	108.64	104.93	102.53	101.56
Loan addition during the year	5.81	4.86	6.60	8.61	12.47
Repayments during the year	8.16	8.57	9.00	9.57	10.37
Closing Balance of Loans	108.64	104.93	102.53	101.56	103.67
Average Loan	109.81	106.78	103.73	102.04	102.61
Weighted average rate of interest (%)	9.15%	9.15%	9.15%	9.15%	9.15%
Interest Expense	10.05	9.77	9.49	9.34	9.39

Interest on Security Deposit

4.39 The Petitioner has estimated the interest on security deposit for each year considering the interest rate of 6.75% on the average of opening balances and closing balance of security deposit for the Dholera supply area. The addition has been projected on the basis of trends observed in the supply areas.

4.40 The estimated interest on security deposit for Dholera supply area is as under.

Table 50: Interest on security deposit of Dholera Supply Area for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Interest on Security Deposits	0.63	1.09	1.52	2.01	2.55

4.41 The Petitioner requests the Hon'ble Commission for the approval of the estimated interest on security deposit for Dholera supply area.

Interest on Working capital

4.42 The interest on working capital is computed as per the MYT Regulations, 2024. The interest rate, being the SBI MCLR rate on 1st April of the financial year plus 200 basis points of 10.65% is to be applied on the working capital requirement arrived at in accordance with the Regulations.

4.43 The interest on working capital is shown in the table below for the approval of the Hon'ble Commission.

Table 51: Interest on working capital of Dholera Supply Area for MYT Control Period

All Figures in Rs. Crore	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
O&M Expenses for 1 month	0.51	0.56	0.60	0.65	0.71
1% of GFA for maintenance spares	1.87	2.09	2.32	2.58	2.87
Receivables for 1 month	11.17	17.69	21.37	27.84	34.08
Less: Security Deposit	9.34	16.17	22.59	29.75	37.84
Normative Working Capital	4.22	4.18	1.71	1.31	(0.19)
Interest Rate (in %)	10.65%	10.65%	10.65%	10.65%	10.65%
Interest on Working Capital	0.45	0.44	0.18	0.14	-

Depreciation

4.44 The depreciation for MYT Control Period has been computed at the rates specified in the GERC Regulations.

4.45 The total depreciation arrived at after the computation described above is shown in the table below. The Petitioner submits to the Hon'ble Commission to approve the depreciation as proposed.

Table 52: Depreciation of Dholera Supply Area for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Depreciation	8.16	8.57	9.00	9.57	10.37

Return on Equity

- 4.46 As per MYT Regulations 2024, the Hon'ble Commission has provided for computation of return on equity for existing assets capitalised upto 31st March, 2025 and return on capital employed for assets capitalised w.e.f. 1st April, 2025 grossed up for applicable income tax. Since the same is in deviation to the MOP Electricity (Second Amendment) Rules, 2023 dated 26th July 2023, the Petitioner has filed a separate petition seeking necessary clarification/rectification.
- 4.47 In this background, the Petitioner has computed the return on equity at 15.50% for Asset commissioned upto 01.04.2025. For New Assets after 01.04.2025, the Petitioner has considered Return on Equity at 15.50% and 15.00% for Supply and Wire Business respectively for the MYT control period based on the MOP Electricity (Second Amendment) Rules, 2023 dated 26th July 2023. It may kindly be noted that same is subject to outcome of the Petition no. 2404/2024. Further, the rate of return on equity has been grossed up with MAT rate and applied on average of the opening & closing balance of the equity arrived at considering the estimated capitalisation in MYT Control Period.
- 4.48 The return on equity estimated by the Petitioner is shown in the table below for the approval of the Hon'ble Commission.

Table 53: Return on Equity of Dholera Supply Area for MYT Control Period

All figures in Rs. Crore	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Opening Equity	53.31	55.80	57.88	60.71	64.40
Equity addition during the year	2.49	2.08	2.83	3.69	5.34
Equity at end of the year	55.80	57.88	60.71	64.40	69.75
Average of opening & closing	54.56	56.84	59.30	62.56	67.07
ROE on the average balance (incl. tax)	10.24	10.66	11.10	11.70	12.52

Bad Debts

- 4.49 The MYT Regulations, 2024 provides that the Hon'ble Commission may allow bad debts written off as a pass through in the ARR based on the trend of write off of bad debts in previous years.
- 4.50 The Petitioner has not estimated the bad debts for MYT Control Period as of now. The Petitioner will seek approval of bad debts, if any, during truing up exercise as may be required.

Table 54: Provision for Bad Debts of Dholera Supply Area for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Provision for Bad Debts	-	-	-	-	-

Contingency Reserve

- 4.51 The GERC (MYT) Regulations, 2024 provides for consideration of 0.5% of the cost of fixed assets towards the contingency reserve. Accordingly, the Petitioner has considered the Contingency Reserve as under.

Table 55: Contingency Reserve of Dholera Supply Area for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Contingency Reserve	0.94	1.05	1.16	1.29	1.43

Non-Tariff Income

- 4.52 The non-tariff income for MYT Control Period is projected as per the actuals for FY 2023-24.
- 4.53 The non-tariff income estimated for the entire control period is as under.

Table 56: Non-Tariff Income of Dholera Supply Area for MYT Control Period

All figures in Rs. Crores	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Non-Tariff Income	0.02	0.02	0.02	0.02	0.02

- 4.54 The Petitioner requests the Hon'ble Commission to approve the Non-Tariff Income as estimated above. The variation in actual non-tariff income except bad debt recovery will be considered as uncontrollable during the truing up exercise.

Aggregate Revenue Requirement

- 4.55 The Aggregate Revenue Requirement of Dholera Supply Area for MYT Control Period is shown in the table below.

Table 57: ARR of Dholera Supply Area for MYT Control Period

All Figures in Rs. Crore	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30
Power Purchase	97.45	174.09	216.78	292.27	364.27
O&M expenses	6.17	6.69	7.22	7.81	8.46
Depreciation	8.16	8.57	9.00	9.57	10.37
Interest on loans	10.05	9.77	9.49	9.34	9.39
Interest on working capital	0.45	0.44	0.18	0.14	-
Interest on SD	0.63	1.09	1.52	2.01	2.55
Bad debts	-	-	-	-	-
Contingency reserve	0.94	1.05	1.16	1.29	1.43
RoE incl. income tax	10.24	10.66	11.10	11.70	12.52
Less: Non-tariff income	0.02	0.02	0.02	0.02	0.02
ARR	134.06	212.33	256.44	334.09	408.97

- 4.56 The Petitioner would like to submit that as per the GERC (Demand Side Management) Regulations, 2012, it is required to formulate and submit to the Hon'ble Commission a perspective DSM Plan covering period of the control period. In turn, the Petitioner will make necessary submission for the DSM plan for MYT Control Period onwards and the Petitioner shall claim the actual DSM expenses as part of its truing up petitions.

Revenue from Sale of Power

4.57 The revenue from sale of power has been computed considering the sales & existing tariff rates for different category of consumers which are detailed out in respective formats including revised base FPPPA.

4.58 For FY 2024-25, the Hon'ble Commission has approved the base power purchase cost at Rs. 4.89 per kWh and base FPPPA at Rs. 1.37 per kWh for Dahej SEZ. For FY 2025-26, the estimated weighted average power purchase cost works out to be Rs. 6.27 per kWh as against the base power purchase cost of Rs. 4.89 per kWh. Thus, revised base FPPPA works out to Rs. 2.83 per kWh for Dahej SEZ factoring the adjustment to PPC. The revenue for FY 2025-26 is estimated by considering the revised base FPPPA as estimated of Rs. 2.83 per kWh for Dahej SEZ & Dholera Supply Area. Accordingly, the projected Revenue from sale of power is as under.

Table 58: Revenue from Sale of Power of Dholera Supply area for MYT Control Period

All Figures in Rs. Crore	FY 2025-26
Dholera Supply Area	111.84

Revenue Gap/ (Surplus) for FY 2025-26

4.59 The ARR for FY 2025-26 and the revenue is provided as under. The revenue includes revenue from sale of power at the existing tariff rates including revised base FPPPA. Accordingly, the gap/(surplus) is estimated for FY 2025-26 as below:

Table 59: Gap/ (Surplus) of Dholera Supply Area for FY 2025-26

All Figures in Rs. Crores	
ARR	134.06
Less:	
Revenue from sale of power at existing tariff rates including revised base FPPPA	111.84
Gap/ (Surplus)	22.22

4.60 The Petitioner would like to submit that based on the above estimates, there will be estimated gap/(surplus) of Rs. 22.22 Crore.

Chapter 5: Wheeling and Retail supply business for FY 2025-26

- 5.1 Regulation 94 of MYT Regulations, 2024 stipulates that the ARR be segregated as per the allocation matrix for segregation of expenses between Distribution Wires Business and Retail Supply Business for determination of wheeling charges.
- 5.2 The allocation of expenditure to wheeling and retail supply business is based on the consideration that the distribution infrastructure up to the service line is part of the wheeling business and the distribution infrastructure from service line to consumer premises is part of the retail supply business.
- 5.3 The allocation matrix as specified by the Hon'ble Commission for segregation of expenses between wheeling & retail supply business is as under:-

**Table 60: Allocation Matrix for Segregation to Wheeling & Retail Supply
For Dholera Supply Area**

ARR Components	Wires Business (%)	Retail Business (%)
Power Purchase Expenses	0%	100%
Employee Expenses	60%	40%
Administration & General Expenses	50%	50%
Repair & Maintenance Expenses	90%	10%
Depreciation	90%	10%
Interest on Long Term Loan Capital	90%	10%
Interest on Working Capital and Consumer Security Deposit	10%	90%
Bad Debts	0%	100%
Income Tax	90%	10%
Contingency reserves	100%	0%
Return on Equity	90%	10%
Non-Tariff Income	10%	90%

- 5.4 Based on the above allocation matrix, the ARR of Dholera Supply Area has been segregated into ARR for wheeling and supply business as shown in tables below.

Table 61: ARR for Wheeling Business of Dholera Supply Area for FY 2025-26

All Figures in Rs. Crores	
Power Purchase	-
Employee Expenses	0.63
Administration & General Expenses	2.98
Repair & Maintenance Expenses	0.90
Depreciation	7.35
Interest on Loan	9.04
Interest on Security Deposit	0.06
Interest on Working Capital	0.04
Bad debts	-
Contingency Reserve	0.94
Return on Equity (incl. tax)	9.22
Less: Non-Tariff Income	0.00
Aggregate Revenue Requirement	31.17

Table 62: ARR for Retail Supply Business of Dholera Supply Area for FY 2025-

26

All Figures in Rs. Crores	
Power Purchase	97.45
Employee Expenses	0.42
Administration & General Expenses	0.33
Repair & Maintenance Expenses	0.90
Depreciation	0.82
Interest on Loan	1.00
Interest on Security Deposit	0.57
Interest on Working Capital	0.40
Bad debts	-
Contingency Reserve	-
Return on Equity (incl. tax)	1.02
Less: Non-Tariff Income	0.02
Aggregate Revenue Requirement	102.89

- 5.5 The above segregated ARR is being considered to determine the wheeling charges and cross-subsidy charges for FY 2025-26.

Chapter 6: Gap/ (Surplus) Analysis

- 6.1 The revenue for FY 2025-26 is arrived at by considering sales forecasted for FY 2025-26. Considering the ARR for FY 2025-26, the Petitioner has arrived at the gap as under.

Table 63: Revenue Gap/ (Surplus) for determination of tariff of Dholera Supply Area for FY 2025-26

All Figures in Rs. Crores	
ARR	134.06
Less:	
Revenue from sale of power at existing tariff rates including revised base FPPPA	111.84
Gap/ (Surplus)	22.22

Cumulative Gap/ (Surplus)

- 6.2 The Petitioner submits that carrying cost for the unrecovered gap is the legitimate claim of the Petitioner due to deferment in recovery of gap.
- 6.3 Accordingly, the Petitioner has calculated carrying cost as per the settled principle and in line with the regulations. The Petitioner, therefore, requests the Hon'ble Commission to consider such outstanding amount in addition to the Gap/ (Surplus) of FY 2023-24 along with carrying cost.
- 6.4 The summary of revenue gap/ (surplus) for determination of tariff FY 2025-26 is shown in the following table.

Table 64: Cumulative Revenue Gap/ (Surplus) for determination of tariff of Dholera Supply Area for FY 2025-26

All Figures in Rs. Crores	
Gap/ (Surplus) of FY 2023-24	18.11
Carrying Cost	3.10
Gap/ (Surplus) of FY 2025-26	22.22
Cumulative Gap/ (Surplus)	43.43

- 6.5 The Petitioner proposes to recover part of the cumulative gap by way of implementation

of the proposed revised tariff of Dahej SEZ from 1st April 2025. The balance gap shall be addressed at the time of truing up of FY 2025-26.

Chapter 7: Tariff Proposal for FY 2025-26

Background

7.1 The Petitioner has computed the cumulative gap/ (surplus) for FY 2023-24, FY 2025-26 and carrying cost as detailed in the earlier chapters. In order to recover part of the cumulative gap/(surplus), the Petitioner proposes to implement the revised proposed tariff of Dahej SEZ, being the similarly situated licensee. Any pending gap/(surplus) shall be adjusted at the time of truing up.

Tariff Philosophy

7.2 The Petitioner submits that the Hon'ble Commission has approved the tariff structure based on widely recognized best practices in accordance with the legal framework as detailed hereunder:

- A. Consumers' capacity to pay
- B. Principles of cross subsidy prescribed by Tariff Policy
- C. Incentivising energy conservation through telescopic tariff
- D. Demand Side Management
- E. Promotion of efficient use of electricity and also avoiding drawal/ injection of reactive energy

Determination of Retail Tariff

7.3 The Petitioner proposes to recover the cumulative gap of Rs. 43.43 Crore by implementing the revised proposed tariff of Dahej SEZ w.e.f 1st April, 2025, being the similarly situated licensee. Any pending gap/(surplus) shall be adjusted at the time of truing up .

7.4 The proposed tariff schedule for Dholera supply area in line with Dahej SEZ is attached as **Annexure 1**.

7.5 The Petitioner would like to clarify that any variation in recovery of the said gap shall be dealt with during Truing up exercise for FY 2025-26.

- 7.6 For FY 2025-26, the Petitioner proposes to continue “Green Tariff” of Rs. 1.00 per unit over and above tariff for respective category of consumer.

Open Access Charges

Determination of Wheeling Charges

- 7.7 The GERC (Multi Year Tariff) Regulations, 2024 stipulates that the wheeling charges shall be determined based on the ARR allocated to the wheeling business.
- 7.8 The Petitioner, in this petition, has arrived at the wheeling ARR based on the allocation of ARR of distribution business, in accordance with the MYT Regulations, 2024.
- 7.9 To determine the wheeling charges, the wheeling ARR is divided by the energy wheeled. Accordingly, the wheeling charge arrived at is tabulated below for the approval of the Hon’ble Commission:

Table 65: Wheeling charges in cash of Dholera Supply Area for FY 2025-26

Wheeling Charges	UoM	FY 25-26
Wheeling ARR	Rs. Cr.	31.17
Unit Wheeled	MU	146.68
Wheeling Charges (Rs./Unit)	Rs./Kwh	2.12

- 7.10 The Petitioner further states that an open access consumer will also have to bear the following wheeling losses in addition to the wheeling charges.

Table 66: Wheeling loss in kind of Dholera Supply Area of FY 2025-26

Category	In %
HT Category	5.00%
LT Category	8.00%

Determination of Cross-Subsidy Surcharge

- 7.11 As per the principles enunciated in the amendment in the Tariff Policy, the cross subsidy surcharge is to be computed based on Pooled Power Purchase cost. Further, the principles laid out in the Tariff Policy amply clarify to compensate the distribution licensee for the existing level of cross-subsidization.
- 7.12 In this background, the Petitioner has detailed the computation of Cross Subsidy Charge in the following table:

Table 67: Cross-subsidy surcharge for Dholera Supply Area

Particulars	HTP-1
T – Tariff for HT category in Rs/kWh*	6.98
PPC – Average cost of power Purchase in Rs/kWh	6.27
L – Loss for HT category in %	5.00%
D –Wheeling charges for HT category in Rs/kWh	2.12
Cross subsidy Surcharge in Rs/kWh	-

Determination of Additional Surcharges

- 7.13 As per the regulation 25 of GERC (Terms & Conditions of Intra-State Open Access) Regulations, 2011, the OA consumer will also be required to pay an additional surcharge as per section 42 (4) of the EA 2003.

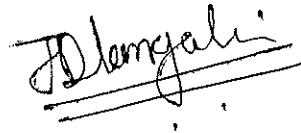

Chapter 8: Prayers

- 8.1 The Petitioner is filing the present petition for Truing up of FY 2023-24, Determination of Aggregate Revenue Requirement for MYT Control Period FY 2025-26 to FY 2029-30, and determination of tariff for FY 2025-26 for its Distribution business of Dholera Supply area.
- 8.2 In view of the facts and circumstances, the Petitioner prays to the Hon'ble Commission that it may be pleased to:
- a) Admit the petition for truing up of FY 2023-24, Aggregate Revenue Requirement for MYT Control Period FY 2025-26 to FY 2029-30 and determination of tariff for FY 2025-26.
 - b) Approve the trued up gap/ (surplus) of FY 2023-24.
 - c) Approve the Aggregate Revenue Requirement for MYT Control Period FY 2025-26 to FY 2029-30.
 - d) Approve the cumulative gap/ (surplus) as proposed in the petition.
 - e) Approve the wheeling ARR and corresponding charges for wheeling of electricity with effect from 1st April, 2025.
 - f) Approve the recovery through retail tariff including revised base FPPPA as prayed for.
 - g) Allow additions/ alterations/ changes/ modifications to the petition at a future date.
 - h) Permit the Petitioner to file all necessary pleading and documents in the proceeding and documents from time to time for effective consideration of the proceeding.
 - i) Allow any other relief, order or direction which the Hon'ble Commission deems fit to be issued.
 - j) Condone any inadvertent omissions/ errors/ rounding off difference/ shortcomings.

Declaration that the subject matter of above petition has not been raised by the Petitioner before any other competent forum, and that no other competent forum is currently seized of the matter or has passed any orders in relation thereto.

Annexure-1: Proposed Tariff Schedule

FOR DHOLERA SUPPLY AREA OF TORRENT POWER LIMITED

**TARIFF FOR DISTRIBUTION AND SUPPLY OF ELECTRICITY AT LOW
TENSION,
HIGH TENSION AND EXTRA HIGH TENSION**

EFFECTIVE FROM: 1st April, 2025

GENERAL CONDITIONS

1. The tariff figures indicated in this tariff schedule are the tariff rates payable by all the consumers of Torrent Power Limited – Distribution in the Dholera supply area.
2. These tariffs are exclusive of Electricity Duty, tax on sale of electricity, taxes and other charges levied by the Government or other competent authorities from time to time which are payable by the consumers, in addition to the charges levied as per the tariff.
3. All these tariffs for power supply are applicable to only one point of supply.
4. The charges specified are on monthly basis. Distribution Licensee may decide the period of billing and adjust the tariff rate accordingly.
5. Except in cases where the supply is used for purpose for which a lower tariff is provided in the tariff schedule, the power supplied to any consumer shall be utilized only for the purpose for which supply is taken and as provided for in the tariff.
6. Meter charges shall be applicable as prescribed under ‘GERC (Licensee’s Power to Recover Expenditure incurred in providing supply and other Miscellaneous Charges) Regulations, 2005 as in force from time to time.
7. The various provisions of the GERC (Licensee’s power to recover expenditure incurred in providing supply and other miscellaneous charges) Regulations, 2005 will continue to apply.

8. Conversion of Ratings of electrical appliances and equipments from kilowatt to B.H.P. or vice versa will be done, when necessary, at the rate of 0.746 kilowatt equal to 1 B.H.P.
9. The billing of fixed charges based on contracted load or maximum demand shall be done in multiples of 0.5 (one half) Horse Power or kilo watt (HP or kW) as the case may be.

The fraction of less than 0.5 shall be rounded to next 0.5. The billing of energy charges will be done on complete one kilo-watt-hour (kWh).
10. The Connected Load for the purpose of billing will be taken as the maximum load connected during the billing period.
11. The Fixed charges, minimum charges, demand charges, meter rent and the slabs of consumption of energy for energy charges mentioned shall not be subject to any adjustment on account of existence of any broken period within billing period arising from consumer supply being connected or disconnected any time within the duration of billing period for any reason.
12. Contract Demand shall mean the maximum kW for the supply of which licensee undertakes to provide facilities to the consumer from time to time.
13. Fuel Cost and Power Purchase Adjustment Charges shall be applicable in accordance with the Formula approved by the Gujarat Electricity Regulatory Commission from time to time.
14. Payment of penal charges for usage in excess of contract demand / load for any billing period does not entitle the consumer to draw in excess of contract demand / load as a matter of right.
15. The payment of power factor penalty does not exempt the consumer from taking steps to improve the power factor to the levels specified in the Regulations notified under the Electricity Act, 2003 and licensee shall be entitled to take any other action deemed necessary and authorized under the Act.
16. Delayed payment charges for all consumers:

No delayed payment charges shall be levied if the bill is paid within ten days from the date of billing (excluding date of billing).

Delayed payment charges will be levied at the rate of 15% per annum for the period from the due date till the date of payment.

For Government dues, the delayed payment charges will be levied at the rate provided under the relevant Electricity Duty Act.

17. Green Power Tariff:

- Green Power Tariff of Rs 1.00/kWh, shall be applicable over and above applicable charges as per tariff schedule and FPPPA charges of the respective category as per Tariff Order, be levied to the consumers opting for meeting their demand of green energy.
- All consumers (Extra High Voltage, High Voltage and Low Voltage) shall be eligible for opting RE power on payment of Green Power Tariff.
- This option can be exercised by consumer giving billing cycle notice to the Distribution Licensee in writing before commencement of billing period.

PART- I
SCHEDULE OF TARIFF FOR SUPPLY OF ELECTRICITY
AT LOW AND MEDIUM VOLTAGE

1. RATE: RGP

This tariff is applicable to all services in the residential premises:

Single-phase supply: Aggregate load up to 6 kW

Three-phase supply: Aggregate load above 6 kW

1.1. FIXED CHARGES/MONTH

For other than BPL consumers

(a)	Up to and including 2 kW	Rs. 15 per month
(b)	Above 2 and up to 4 kW	Rs. 25 per month
(c)	Above 4 and up to 6 kW	Rs. 45 per month
(d)	Above 6 kW	Rs. 70 per month

For BPL household consumers*

(a)	Fixed Charges	Rs. 5 per month per installation
-----	---------------	----------------------------------

PLUS

1.2. ENERGY CHARGE: For the total monthly consumption

For other than BPL consumers

(i)	First 50 units	215 Paise per Unit
(ii)	Next 50 units	245 Paise per Unit
(iii)	Next 150 units	310 Paise per Unit
(iv)	Above 250 units	400Paise per Unit

For BPL household consumers*

(a)	First 50 units	150 Paise per Unit
(b)	For remaining units	Rates as per RGP

**The consumer who wants to avail the benefit of the above tariff has to produce a copy of the Card issued by the authority concerned at the zonal office of the*

Distribution Licensee. The concessional tariff is only for 50 units per month.

1.3. Minimum bill (excluding meter charges)

Payment of fixed charges as specified in 1.1 above

2. RATE: Non-RGP

This tariff is applicable to the services for the premises those are not covered in any other tariff categories and having aggregate load up to and including 40 kW.

2.1. Fixed Charges per month

(a)	Up to and including 10 kW of connected load	Rs.50 per kW
(b)	Above 10 kW and up to 40 kW of connected load	Rs. 85 per kW

PLUS

2.2. ENERGY CHARGE:

(a)	For installation having contracted load up to and including 10 kW for entire consumption during the month	290 paise per unit
(b)	For installation having contracted load exceeding 10 kW for entire consumption during the month	320 Paise per Unit

2.3. Minimum bill

Minimum bill per installation per month for consumers other than Seasonal Consumers: Payment of Fixed Charge as specified in 2.1 above.

2.4. Minimum bill per installation for Seasonal Consumers

- a) “Seasonal Consumer”, shall mean a consumer who takes and uses power supply for ice factory, ice candy machines, ginning and pressing factory, oil

mill, rice mill, huller, salt industry, sugar factory, khandsari, cold storage plants (including such plants in fisheries industry), tapioca industries manufacturing starch, etc.

- b) Any consumer, who desires to be billed for the minimum charges on annual basis shall intimate to that effect in writing in advance about the off-season period during which energy consumption, if any, shall be mainly for overhauling of the plant and machinery. The total period of the off-season so declared and observed shall be not less than three calendar months in a calendar year.
- c) The total minimum amount under the head “Fixed and Energy Charges” payable by the seasonal consumer satisfying the eligibility criteria under sub-clause (a) above and complying with the provision stipulated under sub-clause (b) above shall be Rs. 1800/- per annum per kW of the contracted load.
- d) The units consumed during the off-season period shall be charged for at a flat rate of 345 Paise per unit.
- e) The electricity bills related to the off-season period shall not be taken into account towards the amount payable against the annual minimum bill. The amount paid by the consumer towards the electricity bills related to the seasonal period only under the heads “Fixed Charges” and “Energy Charges”, shall be taken into account while determining the amount of short-fall payable towards the annual minimum bill as specified under sub-clause (c) above.

3. RATE: LTMD

This tariff is applicable to the services for the premises those are not covered in any other tariff categories and having aggregate load above 40 kW and up to 100 kW.

This tariff shall also be applicable to consumer covered in category- ‘Rate: Non-RGP’ so opts to be charged in place of ‘Rate: Non-RGP’ tariff.

3.1. FIXED CHARGE

(a)	For billing demand up to the contract demand		
	(i)	For first 40 kW of Billing Demand	Rs. 90 per kW per month
	(ii)	Next 20 kW of Billing Demand	Rs. 130per kW per

			month
	(iii)	Above 60 kW of Billing Demand	Rs. 195 per kW per month
(b)		For Billing Demand in excess of the Contract Demand	Rs. 265 Per kW per month

PLUS

3.2. ENERGY CHARGE

For the entire consumption during the month	325 Paise per Unit
---	--------------------

PLUS

3.3. REACTIVE ENERGY CHARGE

For all the reactive units (KVARH) drawn during the month	10 paise per KVARH
---	--------------------

3.4. Billing Demand

The billing demand shall be highest of the following:

- a) Eighty-five percent of the contract demand
- b) Actual maximum demand registered during the month
- c) 15 kW

3.5. Minimum Bill

Payment of demand charges every month based on the billing demand.

3.6. Seasonal Consumers taking LTMD Supply:

- 3.6.1. The expression, “Seasonal Consumer”, shall mean a consumer who takes and uses power supply for ice factory, ice-candy machines, ginning and pressing factory, oil mill, rice mill, salt industry, sugar factory, khandsari, cold storage plants (including such plants in fishery industry), tapioca industries

manufacturing starch, pumping load or irrigation, white coal manufacturers etc.

3.6.2. A consumer, who desires to be billed for minimum charges on annual basis, shall intimate in writing in advance about the off-season during which energy consumption, if any, shall be mainly for overhauling of the plant and machinery. The off-season period at any time shall be a full calendar month/months. The total period of off-season so declared and observed shall be not less than three calendar months in a calendar year.

3.6.3. The total minimum amount under the head “Demand and Energy Charges” payable by a seasonal consumer satisfying the eligibility criteria under sub clause 3.6.1 above and complying with provisions stipulated under sub clause 3.6.2 above shall be Rs. 2970/- per annum per kW of the billing demand.

3.6.4. The billing demand shall be the highest of the following:

- a) The highest of the actual maximum demand registered during the calendar year.
- b) Eighty-five percent of the arithmetic average of contract demand during the year.
- c) 15 kW.

3.6.5. Units consumed during the off-season period shall be charged for at the flat rate of 345 Paise per unit.

4. RATE: Non-RGP Night

This tariff is applicable for aggregate load up to 40 kW and using electricity **exclusively during night hours** from 10.00 PM to 06.00 AM next day. (The supply hours shall be regulated through time switch to be provided by the consumer at his cost.)

4.1. FIXED CHARGES/MONTH

50% of Fixed charges specified in Rate Non-RGP above.

PLUS

4.2. ENERGY CHARGE

For entire consumption during the month	270 Paise per Unit
---	--------------------

NOTE:

- i. 15% of the contracted demand can be availed beyond the night hours prescribed as per para 4.0 above.
- ii. 10% of total units consumed during the billing period can be availed beyond the night hours prescribed as per para 4.0 above.
- iii. In case the consumer failed to observe condition no.1 above during any of the billing month, then demand charge during the relevant billing month shall be billed as per Non-RGP category demand charge rates given in para 2.1 of this schedule.
- iv. In case the consumer failed to observe condition no.2 above during any of the billing month, then entire energy consumption during the relevant billing month shall be billed as per Non-RGP category energy charge rates given in para 2.2 of this schedule.
- v. In case the consumer failed to observe condition no.1 and 2 both during any of the billing month, then demand charge and entire energy consumption during the relevant billing month shall be billed as per Non-RGP category demand charge and energy charge rates given in para 2.1 and 2.2 respectively, of this schedule.
- vi. This tariff shall be applicable if the consumer so opts to be charged in place of Non-RGP tariff by using electricity exclusively during night hours as above.
- vii. The option can be exercised to shift from regular Non-RGP tariff category to Rate : Non RGP Night tariff or from Rate: Non-RGP Night Tariff category to regular Non-RGP tariff four times in a calendar year by giving not less than 15 days' advance notice in writing before commencement of billing period.

5. RATE: LTMD-Night

This tariff is applicable for aggregate load above 40 kW and using electricity

exclusively during night hours from 10.00 PM to 06.00 AM next day. (The supply hours shall be regulated through time switch to be provided by the consumer at his cost.)

5.1. FIXED CHARGE per month :

50% of Fixed charges specified in Rate LTMD above

PLUS

5.2. ENERGY CHARGE

For entire consumption during the month	275 Paise per Unit
---	--------------------

PLUS

5.3. Reactive ENERGY CHARGE

For all the reactive units (KVARH) drawn during the month	10 paise per KVARH
---	--------------------

NOTE:

- i. 15% of the contracted demand can be availed beyond the night hours prescribed as per para 5.0 above.
- ii. 10% of total units consumed during the billing period can be availed beyond the night hours prescribed as per para 5.0 above.
- iii. In case the consumer failed to observe condition no.1 above during any of the billing month, then demand charge during the relevant billing month shall be billed as per LTMD category demand charge rates given in para 3.1 of this schedule.
- iv. In case the consumer failed to observe condition no.2 above during any of the billing month, then entire energy consumption during the relevant billing month shall be billed as per LTMD category energy charge rates given in para 3.2 of this schedule.
- v. In case the consumer failed to observe condition no.1 and 2 both

during any of the billing month, then demand charge and entire energy consumption during the relevant billing month shall be billed as per LTMD category demand charge and energy charge rates given in para 3.1 and 3.2 respectively, of this schedule.

- vi. This tariff shall be applicable if the consumer so opts to be charged in place of LTMD tariff by using electricity exclusively during night hours as above.
- vii. The option can be exercised to shift from regular LTMD tariff category to Rate: LTMD Night tariff or from Rate: LTMD Night tariff category to regular LTMD tariff four times in a calendar year by giving not less than 15 days' advance notice in writing before commencement of billing period.

6. **RATE: WWSP**

This tariff shall be applicable to services used for water works and sewerage pumping purposes.

(a)	Fixed charges per month	Rs. 20 per HP
PLUS		
(b)	Energy charges per month: For entire consumption during the month	305 paise per unit

7. **RATE: STREET LIGHTS (SL)**

7.1. **Tariff for Street Light for Local Authorities and Industrial Estates:**

This tariff includes the provision of maintenance, operation and control of the street lighting system.

7.1.1. **Energy charges**

For all the units consumed during the month	280 Paise per Unit
---	--------------------

7.1.2. **Renewal and Replacements of Lamps:**

The consumer shall arrange for renewal and replacement of lamp at his cost by person authorised by him in this behalf under Rule-3 of the Indian Electricity Rules, 1956 / Rules issued by CEA under the Electricity Act, 2003.

7.1.3. **Maintenance other than Replacement of Lamps:**

Maintenance of the street lighting system shall be carried out by Distribution Licensee.

8. **RATE: TEMPORARY**

This tariff is applicable to services of electricity supply for temporary period at the low voltage.

8.1. **FIXED CHARGE**

Fixed Charge per Installation	Rs.15 per kW per Day
-------------------------------	----------------------

PLUS

8.2. **ENERGY CHARGE**

A flat rate of	485 Paise per Unit
----------------	--------------------

Note: Payment of bills is to be made within seven days from the date of issue of the bill. Supply would be disconnected for non-payment of dues on 24 hours' notice.

9. **RATE: LT – Electric Vehicle (EV) Charging Stations**

This tariff is applicable to consumers who use electricity **EXCLUSIVELY** for electric vehicle charging stations.

Other consumers can use their regular electricity supply for charging electric vehicle under same regular category i.e. RGP, NRGP, LTMD etc.

9.1. **FIXED CHARGE**

Rs. 25 per month per installation

PLUS

9.2. ENERGY CHARGE

Energy Charge	345 Paise per Unit
---------------	--------------------

PART- II

TARIFFS FOR SUPPLY OF ELECTRICITY AT HIGH TENSION (3.3 KV AND ABOVE, 3-PHASE 50 C/S), AND EXTRA HIGH TENSION

The following tariffs are available for supply at high tension for large power services for contract demand not less than 100 kVA

1. RATE: HTP - 1

This tariff will be applicable for supply of electricity to HT consumers contracted for 100 kVA and above for regular power supply and requiring the power supply for the purposes not specified in any other HT Categories.

1.1. DEMAND CHARGE

A. For Billing Demand up to Contract Demand

For First 500 kVA of billing demand	Rs. 150 Per kVA per month
For next 500 kVA of billing demand	Rs. 260 Per kVA per month
For billing demand in excess of 1000 kVA	Rs. 475 Per kVA per month

B. For Billing Demand in excess of Contract Demand

For billing demand in excess over the contract demand	Rs. 555 Per kVA per month
---	---------------------------

PLUS

1.2. ENERGY CHARGE

For entire consumption during the month		
(a)	Up to 500 kVA of billing demand	301 Paise per unit
(b)	For next 2000 kVA of billing demand	321 Paise per unit
(c)	For billing demand in excess of 2500 kVA	331 Paise per unit

PLUS

1.3. TIME OF USE (TOU) CHARGE

For the Consumption during the two peak periods, viz., 0700 Hrs. to 1100 Hrs. & 1800 Hrs. to 2200 Hrs.	
For Billing Demand up to 500 kVA	35 Paise per unit
For Billing Demand above 500 kVA	75 Paise per unit

1.4. Billing demand

Billing demand shall be the highest of the following:

- a) Actual maximum demand established during the month.
- b) Eighty-five percent of the contract demand
- c) One hundred kVA.

1.5. Minimum Bills

Payment of “demand charges” based on kVA of billing demand.

1.6. POWER FACTOR ADJUSTMENT CHARGE

A. Penalty for poor power factor

(a) The power factor adjustment charges shall be levied at the rate of 1% on the total amount of electricity bills for the month under the head “Energy Charges”, arrived at using tariff as per para 1.2 of this schedule, for every 1% drop or part thereof in the average power factor during the month below 90% up to 85%.
(b) In addition to the above clause, for every 1% drop or part thereof in average power factor during the month below 85% at the rate of 2% on the total amount of electricity bill for that month under the head “Energy Charges”, arrived at using tariff as per para 1.2 of this schedule will be charged.

B. Power Factor rebate

If the power factor of the consumer’s installation in any month is above 95%, the consumer will be entitled to a rebate at the rate of 0.5% (half

percent) in excess of 95% power factor on the total amount of electricity bill for that month under the head “Energy Charges” arrived at using tariff as per para 1.2 of this schedule, for every 1% rise or part thereof in the average power factor during the month above 95%.

1.7. Maximum demand and its measurements

The maximum demand in kW or kVA, as the case may be, shall mean an average KW/KVA supplied during consecutive 30/15 minutes or if consumer is having parallel operation with the grid and has opted for 3 minutes, period of maximum use where such meter with the features of reading the maximum demand in KW/KVA directly, have been provided.

1.8. Contract Demand

The contract demand shall mean the maximum KW/KVA for the supply, of which the supplier undertakes to provide facilities from time to time.

1.9. Rebate for Supply at EHV

On Energy Charges		Rebate @
(a)	If supply is availed at 33/66 kV	0.5%
(b)	If supply is availed at 132 kV and above	1.0%

1.10. Concession for Use of Electricity during Night Hours:

For the consumer eligible for using supply at any time during 24 hours, entire consumption shall be billed at the energy charges specified above. However, the energy consumed during night hours of 10.00 PM to 06.00 AM next morning (recorded by a poly phase meter operated through time-switch), shall be eligible for concession at the rate of 30 Paise per unit. The poly phase meter and time switch shall be procured and installed by the consumer at his cost and sealed by the Distribution Licensee.

1.11. Seasonal Consumers taking HT Supply

1.11.1. The expression, “Seasonal Consumer”, shall mean a consumer who takes and uses power supply for ice factory, ice-candy machines, ginning and pressing

factory, oil mill, rice mill, salt industry, sugar factory, khandsari, cold storage plants (including such plants in fishery industry), tapioca industries manufacturing starch, pumping load or irrigation, white coal manufacturers etc.

1.11.2. A consumer, who desires to be billed for minimum charges on annual basis, shall intimate in writing in advance about the off-season during which energy consumption, if any, shall be mainly for overhauling of the plant and machinery. The off-season period at any time shall be a full calendar month/months. The total period of off-season so declared and observed shall be not less than three calendar months in a calendar year.

1.11.3. The total minimum amount under the head “Demand and Energy Charges” payable by a seasonal consumer satisfying the eligibility criteria under sub clause 1.11.1 above and complying with provisions stipulated under sub clauses 1.11.2 above shall be Rs. 4550/- per annum per kVA of the billing demand.

1.11.4. The billing demand shall be the highest of the following:

- a) The highest of the actual maximum demand registered during the calendar year.
- b) Eighty-five percent of the arithmetic average of contract demand during the year.
- c) One hundred kVA

1.11.5. Units consumed during the off-season period shall be charged for at the flat rate of 350 Paise per unit.

1.11.6. Electricity bills paid during off-season period shall not be taken into account towards the amount payable against the annual minimum bill. The amount paid by the consumer towards the electricity bills for seasonal period only under the heads “Demand Charges” and “Energy Charges” shall be taken into account while determining the amount payable towards the annual minimum bill.

2. RATE: HTP-II

Applicability: This tariff shall be applicable for supply of energy to HT consumers contracting for 100 KVA and above, requiring power supply for Water Works and

Sewerage pumping stations.

2.1. DEMAND CHARGE

A. For Billing Demand up to Contract Demand

For First 500 kVA of billing demand	Rs. 115 Per kVA per month
For next 500 kVA of billing demand	Rs. 225 Per kVA per month
For billing demand in excess of 1000 kVA	Rs. 290 Per kVA per month

B. For Billing Demand in excess of Contract Demand

For billing demand in excess of contract demand	Rs. 360 Per kVA per month
---	---------------------------

PLUS

2.2. ENERGY CHARGE

For entire consumption during the month		
(a)	Up to 500 kVA of billing demand	310 Paise per unit
(b)	For next 2000 kVA of billing demand	330 Paise per unit
(c)	For billing demand in excess of 2500 kVA	340 Paise per unit

PLUS

2.3. TIME OF USE (TOU) CHARGE

For the Consumption during the two peak periods, viz., 0700 Hrs. to 1100 Hrs. & 1800 Hrs. to 2200 Hrs.	
For Billing Demand up to 500 kVA	35 Paise per unit
For Billing Demand above 500 kVA	75 Paise per unit

2.4. Billing Demand		Same as per HTP-I tariff
2.5. Minimum Bill		
2.6. Maximum Demand and its measurement		
2.7. Contract Demand		
2.8. Rebate for Supply at EHV		
2.9. Concession for use of electricity during night hours		

Power Factor Adjustment Charges:

A. Penalty for poor power factor

(a) The power factor adjustment charges shall be levied at the rate of 1% on the total amount of electricity bills for the month under the head “Energy Charges”, arrived at using tariff as per para 2.2 of this schedule, for every 1% drop or part thereof in the average power factor during the month below 90% up to 85%.

(b) In addition to the above clause, for every 1% drop or part thereof in average power factor during the month below 85% at the rate of 2% on the total amount of electricity bill for that month under the head “Energy Charges”, arrived at using tariff as per para 2.2 of this schedule will be charged.

B. Power Factor rebate

If the power factor of the consumer’s installation in any month is above 95%, the consumer will be entitled to a rebate at the rate of 0.5% (half percent) in excess of 95% power factor on the total amount of electricity bill for that month under the head “Energy Charges” arrived at using tariff as per para 2.2 of this schedule, for every 1% rise or part thereof in the average power factor during the month above 95%.

3. **RATE: HTP-III**

This tariff shall be applicable to a consumer taking supply of electricity at high voltage, contracting for not less than 100 kVA for temporary period. A consumer not taking supply on regular basis under a proper agreement shall be deemed to be taking supply for temporary period.

3.1. **DEMAND CHARGE**

For Billing Demand up to Contract Demand	Rs. 18 Per kVA per day
For Billing Demand in excess of Contract Demand	Rs. 20 per kVA per day

PLUS

3.2. **ENERGY CHARGE**

For all units consumed during the month	550 Paise per Unit
---	--------------------

PLUS

3.3. **TIME OF USE (TOU) CHARGE**

Additional charge for energy consumption during two peak periods, viz. 0700 Hrs. to 1100 Hrs. and 1800 Hrs. to 2200 Hrs.	75 Paise per unit
--	-------------------

3.4. Billing Demand		Same as per HTP-I tariff
3.5. Minimum Bill		
3.6. Maximum Demand and its measurement		
3.7. Contract Demand		
3.8. Rebate for Supply at EHV		

Power Factor Adjustment Charges:

A. Penalty for poor power factor

(a) The power factor adjustment charges shall be levied at the rate of 1% on the total amount of electricity bills for the month under the head “Energy Charges”, arrived at using tariff as per para 3.2 of this schedule, for every 1% drop or part thereof in the average power factor during the month below 90% up to 85%.

(b) In addition to the above clause, for every 1% drop or part thereof in average power factor during the month below 85% at the rate of 2% on the total amount of electricity bill for that month under the head “Energy Charges”, arrived at using tariff as per para 3.2 of this schedule will be charged.

B. Power Factor rebate

If the power factor of the consumer’s installation in any month is above 95%, the consumer will be entitled to a rebate at the rate of 0.5% (half percent) in excess of 95% power factor on the total amount of electricity bill for that month under the head “Energy Charges” arrived at using tariff as per para 3.2 of this schedule, for every 1% rise or part thereof in the average power factor during the month above 95%.

4. Rate : HTP-IV

This tariff shall be applicable for supply of electricity to HT consumers opting to use electricity exclusively during night hours from 10.00 PM to 06.00 AM next day and contracted for regular power supply of 100 kVA and above.

4.1. Demand Charges

1/3 rd of the Fixed Charges specified in Rate HTP-I above
--

PLUS

4.2. ENERGY CHARGE

For all units consumed during the month	270 Paise per Unit
---	--------------------

4.3. Billing Demand

4.4. Minimum Bill

4.5. Maximum Demand and its measurement

4.6. Contract Demand

4.7. Rebate for Supply at EHV

Same as per HTP-I tariff

Power Factor Adjustment Charges:

A. Penalty for poor power factor

(a) The power factor adjustment charges shall be levied at the rate of 1% on the total amount of electricity bills for the month under the head “Energy Charges”, arrived at using tariff as per para 4.2 of this schedule, for every 1% drop or part thereof in the average power factor during the month below 90% up to 85%.

(b) In addition to the above clause, for every 1% drop or part thereof in average power factor during the month below 85% at the rate of 2% on the total amount of electricity bill for that month under the head “Energy Charges”, arrived at using tariff as per para 4.2 of this schedule will be charged.

B. Power Factor rebate

If the power factor of the consumer's installation in any month is above 95%, the consumer will be entitled to a rebate at the rate of 0.5% (half percent) in excess of 95% power factor on the total amount of electricity bill for that month under the head "Energy Charges" arrived at using tariff as per para 4.2 of this schedule, for every 1% rise or part thereof in the average power factor during the month above 95%.

Note:

1. 15% of the contracted demand can be availed beyond the night hours prescribed as per para 4.0 above.
2. 10% of total units consumed during the billing period can be availed beyond the night hours prescribed as per para 4.0 above.
3. In case the consumer failed to observe condition no.1 above during any of the billing month, then demand charge during the relevant billing month shall be billed as per HTP-I category demand charge rates given in para 1.1 of this schedule.
4. In case the consumer failed to observe condition no.2 above during any of the billing month, then entire energy consumption during the relevant billing month shall be billed as per HTP-I category demand charge rates given in para 1.2 of this schedule.
5. In case the consumer failed to observe condition no.1 and 2 both during any of the billing month, then demand charge and entire energy consumption during the relevant billing month shall be billed as per HTP-I category demand charge and energy charge rates given in para 1.1 and 1.2 respectively, of this schedule.
6. This tariff shall be applicable if the consumer so opts to be charged in place of HTP-I tariff by using electricity exclusively during night hours as above.
7. The option can be exercised to shift from regular HTP-I tariff category to Rate: HTP-IV or from Rate: HTP-IV tariff category to

regular HTP-I tariff four times in a calendar year by giving not less than 15 days' advance notice in writing before commencement of billing period.

5. RATE: HT – Electric Vehicle (EV) Charging Stations

This tariff is applicable to consumers who use electricity EXCLUSIVELY for electric vehicle charging stations contracting power for 100 kVA and above.

Other consumers can use their regular electricity supply for charging electric vehicle under same regular category i.e. HTP-I, HTP-II, HTP-III & HTP-IV

5.1. DEMAND CHARGE

For Billing Demand up to Contract Demand	Rs. 25 per kVA per month
For Billing Demand in excess of Contract Demand	Rs. 50 per kVA per month

5.2. ENERGY CHARGE

Energy Charge	340 Paise per Unit
